

SPECIAL DISTRIBUTIONS

- On occasion, PVH will ship Special Distribution merchandise from Jonesville, NC to various venues. These Special Distributions include Pack and Hold Merchandise for an existing store being renovated, Marketing Events, Charitable Contributions, Samples to Home Office, and Urgent Distributions to Stores.
 - As a result, you may occasionally see BOL paperwork and cartons labeled with unfamiliar store numbers. These cartons would be labeled with the special distribution store number and ship to address.
 - In some cases, the special distribution cartons will be for stores within your pool point. These cartons will be labeled with the special distribution store number, as well as the address for an existing store within your pool. These cartons would need to deliver, along with the existing store's weekly replenishment freight, on its own BOL.

Please Note: If the special distribution store number is used for an existing store within your pool, such as in the case of Pack and Hold merchandise shipping to an existing store which is being renovated, you could continue to see distros for this store number over a period of 3 to 4 weeks, after which you should be sure to remove the special distribution store number from your system. The special distribution store numbers will be periodically reused for different delivery locations; therefore, leaving the special distribution store number set in your system for a specific delivery location will cause a problem with future distros.

- Listed below are examples of Special Distribution Store Numbers for the different divisions:
 - **Calvin Klein: CO 106 - CO 108, CO 616, CO 617**
 - **Van Heusen: VH 100 - VH 102**
 - **Tommy Hilfiger: TO 910 - TO 925**
